

Fuentera

by COSENTINO®

Do you have your sink on site?

Exclusively available with the purchase of an installed premium countertop, complement your Silestone®, Dekton®, or Natural Stone project with a Cosentino® Fuentera® stainless steel undermount sink. Select from one of our 6 premium, 16 gauge models (bar, single or double bowl sinks), or one of our 3 models from the traditional 18 gauge line.

Additionally, our professional service providers have the Fuentera® sink specs on file, saving you time and adding precision to your project. Ask your service provider to help you choose the sink that suits your needs.

Maintenance

Clean stainless using a soft cloth and non-abrasive cleaner, working with, not across, the grain; this will inhibit water spotting and mineral deposits in severe hard water conditions.

Fuentera® sinks are covered against manufacturing defects for a period of 10 years when purchased and installed through The Home Depot.
